Subject: Commission on Ethics investigation - Fine

Good morning Richard,

When we spoke on the phone, you stated that because you were tied up with helping clients with qualifying, and Representative Fine was in Israel it would be a little bit before we could discuss this matter, and you would contact me. Having not heard from you, I called on July 24th and left a message with Shelley, who said you were out of the office dealing with a problem at home. I figured since I tried through telephone, why not try through an email. Can you give me a call when you get a minute to discuss moving forward with this matter?

Thank you,
Ron
